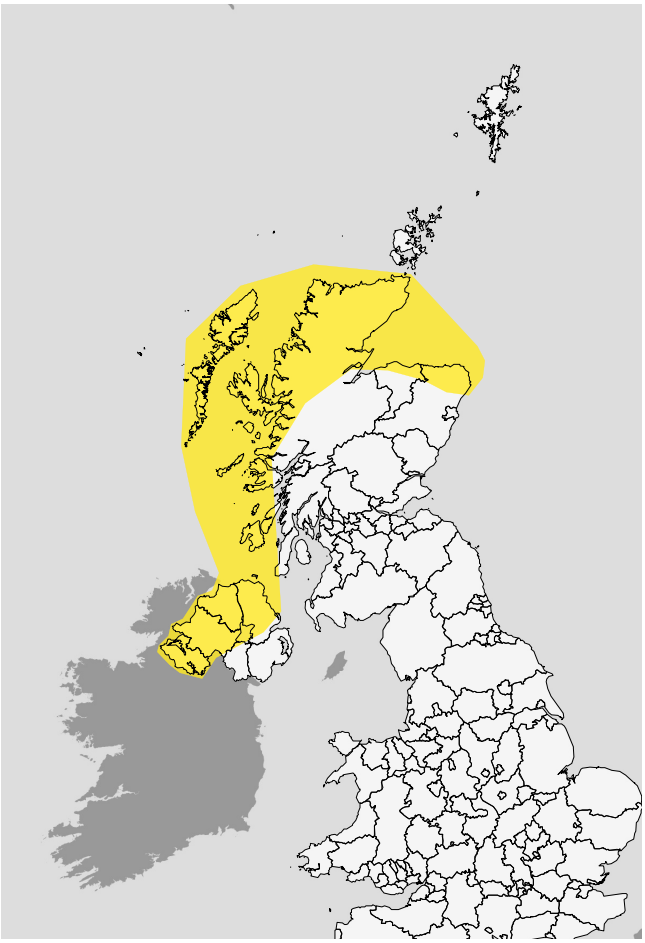
Yellow warning
Snow & Ice

Between
15:00 Tue 29 Dec 2020 and
23:59 Wed 30 Dec 2020



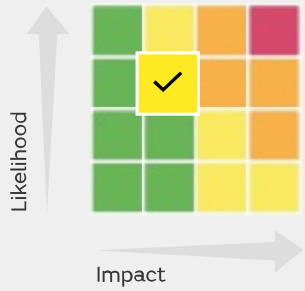
Snow and ice may bring some disruption from later on Tuesday and through Wednesday.

What to expect

- Some roads likely to be affected with longer journey times
- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some injuries from slips and falls on icy surfaces

Further details

Northerly winds will bring further showers of rain, sleet and snow across the north of Northern Ireland as well as northern and western Scotland. Snow accumulations will be generally confined to ground above 100m away from coasts, but some temporary slushy deposits are possible to low levels at times in any heavier showers. 1-3cm is likely to accumulate above 100m, and as much as 5-10cm above 250m, this mostly across high ground of Scotland. Ice will form readily as temperatures quickly fall away rapidly through both Tuesday and Wednesday evenings.



Medium likelihood of low impacts

Issued at 10:05 Tue 29 Dec, 2020
